

2021 AGM – MDHA Webmaster report

The 2020-2021 season was my third as the webmaster. The past year was a season of change.

Highlights:

- TeamSnap was implemented in September as a partial replacement for GoalLine. The tool was selected for its health check questionnaire that was built into the software.
- With the change in tool, I created processes for
 - bulk player imports
 - team creation
 - player moves
 - bulk monthly schedules
- In February, I moved the web component from GoalLine to TeamSnap
 - All pages were recreated
 - All existing documents and images were downloaded and saved
- Created surveys as requested. 7 surveys in total
