

Discipline, Risk and Safety Report 2021 hockey season

The 20/21 season was certainly an interesting season and the MDHA performed very well from both a Discipline and Risk and Safety perspective.

Discipline Overview:

There were no suspensions for the 20/21 season, which means there is no carry over suspension for the upcoming season.

All carry over suspensions were dealt with from the 19/20 season.

Risk and Safety Overview:

Many new protocols were put in place due to Covid-19 and the entire situation did a great job helping to implement all the changes. All of the convenors, coaches and parents did a tremendous job to keeping the players on the ice for a large part of the season. Due to the diligent work of the convenors, coaches, and parents, the MDHA had no outbreaks amongst any teams or bubbles. The coaches and convenors worked very hard to juggle the changing guidelines to ensure our players remained safe.

As an Association we purchased Team Snap to help with our Covid Screening which seemed to work well.
