

Devon Kunkel U13

I grew up playing competitive hockey in the Valley and later in Nepean, which gave me a deep appreciation for the game and everything it offers young athletes.

My coaching philosophy centers around hard work, accountability, teamwork, and continuous improvement—on and off the ice. I believe that effort is everything and that success comes from players who support one another and commit to pushing themselves every day. While I hold high expectations, I strive to create a positive, competitive environment where players can develop their skills, build confidence, and enjoy the game.

I see practice as an opportunity to compete with purpose, and I emphasize resilience, composure, and growth through adversity. Most importantly, I want my players to have fun, build lifelong friendships, and create lasting memories while learning what it means to be a Canuck.

My goal is to help develop not just strong hockey players, but great teammates and young leaders.
